Dear Sirs:

OWNER ASSIGNMENT FOR STATEMENT OF WATER DIVERSION AND USE NO. S000270 --
DIVERSION FROM SPANISH CREEK TRIBUTARY TO EAST BRANCH OF NORTH FORK
FEATHER RIVER IN PLUMAS COUNTY

On May 11, 2005, the State Water Resources Control Board, Division of Water Rights (Division)
received a phone call from Stanley C. Young requesting a change in address for Chatfield Ranch LLC.

Division staff has updated the ownership information of Statement No. S000270 to show the following:

Statement ID:	S000270
Current Owner:	Chatfield Ranch LLC
Mailing Address:	c/o Stanley C. Young and Daniel N. Smith P.O. Box 322 Quincy, CA 95971
Telephone:	(530) 283-1125

A Supplemental Statement will be mailed to you every three years. The submittal of a Supplemental
Statement is the record of your water use. It is used by the Division to verify existing data and also gives
the Division the ability to notify you of water right matters related to your riparian claim.

Should you have questions regarding this matter, please call me at (916) 341-5315.

Sincerely,

Attention: Luann L. Erickson
Engineering Associate

Dear Luann:

Enclosed is a copy of Cal Sierra Title Company recording, Jun 30, 1999, of a Grant Deed from Hale Charlton and Hale Kenneth Charlton of their interest in APN: 005-230-13-17-17,19, a ranch, in Plumas County, through which courses Spanish Creek, a tributary of the North Fork of Feather River, described in Exhibit A. to the Chatfield Ranch LLC.

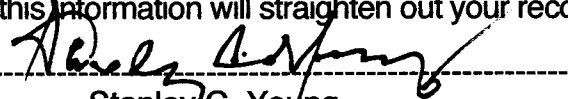

Daniel N. Smith and myself Stanley C. Young created the LLC. Our wives, Charlotte Smith and Louise Young are also owners.

J & H Land was a predecessor of Charlton and has not been involved for years, nor has Leonhardt who appears in the correspondence to your agency.

I hope this will clear up the ownership. As you note our address (Chatfield Ranch LLC) is P.O. Box 989, Quincy, California 95971.

Please let me know if this information will straighten out your records.

Respectfully,

Stanley C. Young

ITEM CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriate rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre 1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.
